I should probably add something.

**California UIC Class II Program:** We are meeting with the CA Division of Oil, Gas, and Geothermal Resources (DOGGR) on July 7th to discuss their recent orders to Class II operators disposing into non-exempt aquifers near Bakersfield. We expect to get an update on the State's assessment of potential impacts from these injection operations and discuss a path forward for a broader review of Class II injection wells in the State. (D. Albright, 2-3971)

Good Morning David,

I just wanted to check and make sure you didn't have anything for the weekly? Did you want to include the meeting on Monday with DOGGER?
